

## RAPID WORK.

Nineteen Pages of the Tariff Bill Disposed Of.

The Brakes Are Taken Off at Last.

## THREE BIG SCHEDULES

Railroaded Through By the Senators Yesterday.

WASHINGTON, June 12.—The brakes were taken off in the senate yesterday and more progress was made with the tariff bill than during any previous three weeks of the consideration of the measure. Three schedules, spirits and wines; cotton and flax; jute and hemp manufactures from paragraph 337 to 277, inclusive, comprising nineteen pages of the bill, were disposed of. The entire cotton schedule, ten pages of the bill, was finished in thirty minutes. The Republicans made no opposition to the amendment proposed to this schedule, maintaining that the rates, though reduced, were so changed as to make the cotton schedule the most "scientific" ever prepared. Bags, made of burlap, for grain and cotton bagging, were placed on the free list. The collar and cuff paragraph, providing for a duty of 30 cents per dozen pieces, and 90 per cent ad valorem, while shirts or other articles composed wholly or in part of linen carry a duty of 50 per cent, provoked considerable discussion and more or less amusement. To-day the woolen schedule was taken up. Mr. Quay gave notice just before adjournment that he would, when this schedule was reached, resume the speech he began delivering four months ago.

## STATEMENT AMPLIFIED.

Senator Caffery Again Before the Sugar Trust Investigating Committee.

WASHINGTON, June 12.—Senator Caffery went before the sugar trust investigating committee yesterday to amplify the statement heretofore made by him concerning his meeting with Mr. Havemeyer at Senator Brice's house. He was reported in his former testimony to have said he had been requested to see Mr. Havemeyer, "who happened to be in Senator Brice's house, but he had not stated the manner in which Mr. Havemeyer happened to be there, which he wished to do."

"Prior to seeing Mr. Havemeyer," Mr. Caffery said, "there was a discussion between those present and ex-Senator White and myself as to the comparative methods of the ad valorem and specific rates of duty on sugar. There was a great deal of difference of opinion on this point, and Senator Brice stated there was a gentleman in the city who knew more about the operation of any given rate of duty on sugar than perhaps any other man in the United States, and that if it was agreeable he would send for him. That man was Mr. Havemeyer. Senator Brice asked me if I had any objection to meeting Mr. Havemeyer and having a discussion with him on this particular point. I told him I had none. I simply desired to state Mr. Havemeyer came to the house in pursuance of the invitation of Mr. Brice."

Henry R. Reed went before the committee and was examined at some length. He added he knew nothing of any speculation in sugar stocks by United States senators.

## COMPROMISE AGREED UPON

Operators and Miners Come Together and a Settlement Is Reached.

COLUMBUS, Ohio, June 12.—About 5:30 last evening the scale committee of the miners and operators announced that an agreement had been reached and was being drawn up. The compromise was on a basis of sixty cents for Ohio and sixty-nine cents for Western Pennsylvania. The agreement is not to take effect until next Monday, June 18, the miners desiring to have a week to submit the matter to the various districts, as much opposition to the compromise is expected, and the miners will have to be prepared to accept it.

At the joint conference last night the agreement was ratified. A. A. Adams, president of the Ohio miners, who was a member of the scale committee, refused to sign the agreement. The settlement, however, is final.

## Chickasaws Will Accept.

FORT GIBSON, I. T., June 12.—The Daves commission held a meeting at Stonewall on Saturday, and the commissioners addressed a crowd of full-blooded Chickasaws, half-breeds, adopted citizens and negroes, variously estimated at from 1,500 to 3,000, urging them to accept the government's proposition and allot their land in severalty and sell the surplus, dividing the proceeds of the sale among members of the tribe. The commission was assured the Chickasaws would ultimately accept the terms offered by them.

## STANFORD'S ESTATE.

Attorney for Mrs. Stanford Talks About the Claims Filed Against It.

NEW YORK, June 12.—Russell J. Wilson, attorney for the estate of the late Senator Leland Stanford, speaking yesterday of the claims of the United States against the stockholders of the Southern Pacific company and the filing of the claim against the Stanford estate, said: "I have been traveling for several days and have heard little of the more recent proceedings in congress. I understand Congressman Geary was to make a speech in committee on the subject, but I have not heard whether he has done so, and do not know the latest developments."

"Senator Stanford died on June 21, 1893, and the first notice to the creditors of his estate was published June 27 following. By California law all claims not presented within ten months after such publication are barred by limitation. So the government, after waiting until the very last was nearly over, suddenly injected this claim into my office. This was on May 29, a Saturday when business hours closed at noon. Afterward it was claimed that the statute of limitation did not run against the government anyhow. I offered them the privilege of withdrawing the claim, and testing that little point, but they did not care to do it."

"Our position is that the government has no right to cover the outside property of the stockholders. If a man owes you a debt secured by mortgage and promissory note and you sell the security under foreclosure and the proceeds do not pay the note you still have a claim on him for the balance, but if you merely have a lien on certain of his property, all you can do is to sell that; you have no further rights against his property."

"We claim that the government has merely a lien on the railroad property. They can take it at the proper time if they wish, but they can not proceed further against the stockholders."

"If the Stanford estate had to pay this claim, would there be much left?" was asked.

"O, yes," Mr. Wilson said, "there would be what would be a very tidy fortune to most people still remaining. I have not the faintest idea what the attorney general means to do, or what action congress will take in the matter."

DENVER, Col., June 12.—Giles O. Pearce, a metallurgist of Colorado Springs, came to Denver after receiving the following note: To Giles O. Pearce, Anarchist. ## Deafness Cannot be Cured.

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure Deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

## HIS PER CAPITA GOES.

Speculators Are Getting the Indians' Money.

TAHLEQUAH, I. T., June 12.—The Cherokees are about to get into a muddle over their millions, the trouble being whether a Cherokee who has a right to share in the per capita, has the right to give an order to some one else to draw for him. The act providing for the payment was not quite explicit in this direction and the treasurer has ruled that an Indian has the right to give an order for his money to whom he pleases.

Speculators have taken advantage of this ruling and have shipped in a lot of money and have their headquarters at one of the principal hotels. The Indians are brought in by strikers and an order taken to the treasurer for their share of the money and discounted at the rate of \$10.70 from each individual. Merchants and others who have accommodated the Indians and are here collecting, are suffering heavy losses caused by the speculation. An Indian who does not want to pay his debts can slip around to the speculator and sell his per capita and leave before the merchant knows he has drawn as the collectors are at the treasurer's office, where the money is being paid out.

## INFLAMED NERVES.

Topeka Doctors Have a Specimen Before Them for Discussion.

The Topeka academy of medicine and surgery met last evening at 723 Kansas avenue. The main paper of the evening was read by Dr. S. G. Stewart on the subject "Neuritis." This malady, to put it in common, everyday terms, means "inflammation of the nerves."

Dr. Stewart brought with him a patient whom he said was suffering from the disease. The man's lower limbs were almost paralyzed, but showed signs of recovery.

The man was injured about nine years ago while working in the field.

Dr. W. S. Lindsey didn't think the patient showed signs indicating that he had neuritis, but most of the doctors agreed with Dr. Stewart.

Dr. D. B. Colcord was to have read a paper on "Microbic Diseases," but as the hour was late it was postponed till the next meeting, and Dr. J. C. McClintock reported a case of pelvic adhesion. The patient, a lady, was present with her nurse. Dr. McClintock said that as he had been out of the city and had been so busy he had not prepared a written report of the case. The case is being treated by massage.

Dr. J. P. Lewis arose and said that he thought Dr. McClintock had not presented his case in the proper shape, and that they weren't there for the purpose of discussing massage.

Dr. McClintock said: "I apologized at first for not having prepared a written report. I have been out of the city and the past week I have done work which is harder than any worker in the field."

Seven People Attacked by a Brute, Three of Whom Will Die.

DALLAS, Tex., June 11.—Yesterday a St. Bernard dog went mad and ran amuck. Passing through the town he killed two dogs and three cats and bit seven people, three of them probably fatally. A negro boy was literally torn to pieces. A lady named Mrs. Worden was attacked in her house and terribly mangled. Nick Powers, a workman at Lemp's ice factory, was seized by the thigh while attempting to escape up a ladder and frightfully lacerated. Jennings Moore, a salesman, had great shreds of flesh torn from his arm and side. Mrs. Mary Arthur, an invalid, lying on a cot in her home, was attacked and her arms, limbs and side torn so that she will die. A young man from a neighboring town was also badly bitten. Two others, names unknown, were more or less seriously injured. Policemen finally killed the brute.

## OWENS TALKS PLAIN.

In His Contest Against Breckinridge He Does Not Mince Words.

LEXINGTON, Ky., June 12.—From 5,000 to 6,000 strangers were here yesterday to hear W. L. C. Owens and Evan Settle, the candidates for congress in opposition to Colonel Breckinridge. They spoke in the opera house to a crowd only measured by the walls. Owens was introduced by Judge Jere R. Morton, an ex-Confederate soldier and a man of high standing in the district.

Owens made several allusions to Colonel Breckinridge, but made no new attack on him. He said, however, he stood by every word uttered in his famous Paris speech, when he attacked Breckinridge bitterly. He said if anybody took offense at anything he had or would say, he wanted that person "to come to him like a man, and not sneak off behind that long-eared, long-haired, irresponsible, crazy brute, Charles C. Moore. Moore published in his prohibition paper several columns last week against Owens, and this allusion is a reflection on Breckinridge, who is said by Owens men to have furnished Moore with the information."

Settle and Owens spoke again last night at the court house, to a room full of voters.
